INDEX TO VOLUME LXX

Pagination According to Months:

January, 1942, pp. 1–100
February, 1942, pp. 101–200
March, 1942, pp. 201–333
April, 1942, pp. 335–397
May, 1942, pp. 399–465
June, 1942, pp. 467–522

Addison's disease, The electro-encephalogram in..... 335
p-Aminobenzoic acid as a metabolite essential for bacterial growth..... 19
Asthma, intractable bronchial, Further observations on the treatment of, by bilateral resection of the pulmonary plexus..... 386

Bard, Philip (see Woolsey, Clinton N.)..... 399
Basilar artery and its branches, Demonstration of the, with thorotrast..... 81
Berger, Olive L. (see Lyford, John, III)..... 488
Book Reviews.....95, 193, 332, 396, 464, 518
Brown, J. Howard: A fungus culture slide..... 460
Brown, Thomas McP., and John C. Nunemaker: Rat-bite fever. A review of the American cases with reevaluation of etiology; report of cases..... 201
Broyles, Edwin N.: Anterior commissure tendon of the larynx. Its significance in the laryngofissure operation. Preliminary note..... 90
Buka, Robert (see Friedenwald, Jonas S.)..... 1

Cameron, Eugenia S. (see Tidwell, Herbert C.)..... 362
Carnes, William H.: The present incidence of tuberculous infection..... 101
Choline esterase content of the chorioid plexus and ciliary processes, The..... 14
Circulation, A study of mechanical factors in the, with special reference to the problem of acute circulatory failure..... 26

Davison, Wilburt C.: Difficulties in the enzyme titration of duodenal contents..... 504
Deaths, An analysis of, in the operating rooms of the Johns Hopkins Hospital with special reference to those occurring under general anesthesia and spinal anesthesia..... 488

Enzymes, The distribution of certain oxidative, in the chorioid plexus..... 1
Enzyme titration of duodenal contents, Difficulties in the..... 504

Fats, The relation between the chemical structure of, and their ability to produce gastric inhibition..... 362
Ford, Frank R. (see King, Arthur B.)..... 124
Friedenwald, Jonas S., Heinz Herrmann, and Robert Buka: The distribution of certain oxidative enzymes in the chorioid plexus..... 1
Friedenwald, Jonas S. (see Hermann, Heinz)..... 14
Fungus culture slide, A..... 460

Fats, The relation between the chemical structure of, and their ability to produce gastric inhibition..... 362
Ford, Frank R. (see King, Arthur B.)..... 124
Friedenwald, Jonas S., Heinz Herrmann, and Robert Buka: The distribution of certain oxidative enzymes in the chorioid plexus..... 1
Friedenwald, Jonas S. (see Hermann, Heinz)..... 14
Fungus culture slide, A..... 460

Gay, Leslie N., and William F. Rienhoff: Further observations on the treatment of intractable bronchial asthma by bilateral resection of the pulmonary plexus.... 386
Gay, Leslie N. (see Iliff, Elizabeth H.)..... 378
Gantt, W. Horsley, and Wendell Muncie: Analysis of the mental defect in chronic cases of Korsakov's psychosis by means of the conditioned reflex method..... 467
Gonococcus, The isolation and identification of the..... 370

Hay fever, Oral treatment of, with ragweed pollen..... 378
Herrmann, Heinz, and Jonas S. Friedenwald: The choline esterase content of the chorioid plexus and ciliary processes..... 14
Herrmann, Heinz (see Friedenwald, Jonas S.)..... 14
Hoffman, W. Christie, Roger A. Lewis, and George W. Thorn: The electro-encephalogram in Addison's disease..... 335

Iliff, Elizabeth H., and Leslie N. Gay: Oral treatment of hay fever with ragweed pollen..... 378

Johns Hopkins Medical Society, Proceedings of the meeting of the 92, 187, 329, 394, 463, 517

King, Arthur B.: Demonstration of the basilar artery and its branches with thorotrast..... 81
King, Arthur B., and Frank R. Ford: A clinical and anatomical study of neurological conditions resulting from metastases in the central nervous system due to carcinoma of the lung..... 124
Kolb, Lawrence (see Sullivan, Maurice)..... 177
Korsakov's psychosis, Analysis of the mental defect in chronic cases of, by means of the conditioned reflex method..... 467

LaRochelle, Frederick T. (see Price, Philip B.)..... 26
Larynx, anterior commissure tendon of the. Its significance in the laryngofissure operation. Preliminary note..... 90
Lewis, Roger A. (see Hoffman, W. Christie)..... 335
Lipoids, from beef brains, The reaction of the subcutaneous tissues to the acetone insoluble..... 55
Lung, carcinoma of the, A clinical and anatomical study of neurological conditions resulting from metastases in the central nervous system due to..... 124
Lyford, John, III, Olive L. Berger, and Harris B. Shumacker, Jr.: An analysis of deaths in the operating rooms of the Johns Hopkins Hospital with special reference to those occurring under general anesthesia and spinal anesthesia..... 488

Marshall, Wade H. (see Woolsey, Clinton N.)..... 399
Muncie, Wendell (see Gantt, W. Horsley)..... 467

Nicholls, Jane (see Sullivan, Maurice)..... 177
Nunemaker, John C. (see Brown, Thomas McP.)..... 201
Nutritional dermatoses in the rat. VII. Notes on the posture, gait and hypertonicity resulting from a diet containing unheated, dried egg white as the source of protein..... 177

Park, Charles R., and W. Barry Wood, Jr.: *p*-Aminobenzoic acid as a metabolite essential for bacterial growth 19
Price, Philip B., Herbert E. Sloan, Jr., and Frederick T. LaRochelle: A study of mechanical factors in the circulation, with special reference to the problem of acute circulatory failure 26

Rat-bite fever. A review of the American cases with reevaluation of etiology 201
Reid, Roger D.: The isolation and identification of the gonococcus 370
Richter, Curt P., and Bettye G. Woodruff: Facial patterns of electrical skin resistance; their relation to sleep, external temperature, hair distribution, sensory dermatomes and skin disease 442
Rienhoff, William F. (see Gay, Leslie N.) 386

Serum albumin, Dietary protein and the regeneration of. IV. The potency values of dried beef serum, whole egg, cow's milk, cow's colostrum, lactalbumin, and wheat gluten 157
Shumacker, Harris B. (see Lyford, John, III) 488
Skin resistance, facial patterns of electrical; their relation to sleep, external temperature, hair distribution, sensory dermatomes and skin disease 442
Sloan, Herbert E., Jr. (see Price, Philip B.) 26
Sullivan, Maurice, Lawrence Kolb, and Jane Nicholls: Nutritional dermatoses in the rat. VII. Notes on the posture, gait and hypertonicity resulting from a diet containing unheated, dried egg white as the source of protein 177

Tactile sensibility, cutaneous, Representation of, in the cerebral cortex of the monkey as indicated by evoked potentials 399
Thorn, George W. (see Hoffman, W. Christie) 335
Tidwell, Herbert C., and Eugenia S. Cameron: The relation between the chemical structure of fats and their ability to produce gastric inhibition 362
Tompkins, Edna H.: The reaction of the subcutaneous tissues to the acetone insoluble lipoids from beef brains 55
Tuberculous infection, The present incidence of 101

Weech, A. A.: Dietary protein and the regeneration of serum albumin. IV. The potency values of dried beef serum, whole egg, cow's milk, cow's colostrum, lactalbumin, and wheat gluten 157
Wood, W. Barry, Jr. (see Park, Charles R.) 19
Woodruff, Bettye G. (see Richter, Curt P.) 442
Woolsey, Clinton N., Wade H. Marshall, and Philip Bard: Representation of cutaneous tactile sensibility in the cerebral cortex of the monkey as indicated by evoked potentials 399
